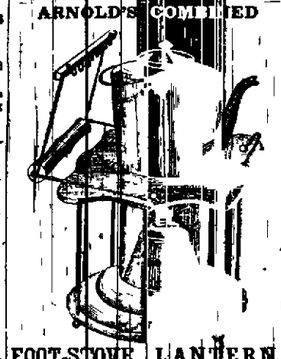
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN,

—AND—

NURSE LAMP.

ALBERT SOYES having purchased the exclusive right for manufacturing and vending in Penobscot county the above valuable invention, is now prepared to offer the same to the public.

As a FOOT STOVE it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather and will be found to be an indispensable article in travelling. It is heated by an oil, alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN it answers all the usual purposes and is less liable to be overset, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicine warm, beside giving the light desired and for cooking in small quantities. For making tea &c it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat iron heat in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required as no one can misunderstand its practicality. To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.

Hope springs Exulting from the base, while Doubts fleeing away give place to Conviction most Triumphant.

BE bold enough, Reader to give your attention one moment, and you will earn what

C. A. Richards' Abbott Bitters

ARE GOOD FOR.

They have been made and sold 40 years—8 years by the present proprietor and note the great truth—he has facts in his possession showing that they have cured and helped thousands yea thousands of cases of

Nervous Debility and Derangements of the Digestive Functions, Depression of Mind and Spirits, Oppression after Eating, Sour Stomach, Sick Headache, Costiveness, Jaundice, Piles, Heartburn, Flatulency, Female Obstructions, Dizziness, Sickness at the Stomach, Water Brash, Loss of Appetite, Pain in the Side, and

Torpor of the Liver and Bowels.

Reader, if you are appalled to earnestly Don't say "I only could believe this to be true I have some of the above complaints, and I would take the medicine at once if I could only have confidence" IT IS TRUE—it is an honest truth, if ever there was one spoken. Come then, if your mind is friendly, discontented and gloomy,—if you have severe Colic Pains after eating your food —if your body begins to waste, or your strength to fail you—if your countenance is haggard and sallow raised—if you have a difficulty in lying on your left side—if your skin is dry and shrivelled—if you have no appetite weak and variable, and perhaps entirely destroyed—if your whole system is languid, especially during the process of digestion—if you have a constant uneasy feeling in the stomach—why, you have only a fit of INDIGESTION, and these great Bitters are made to cure Indigestion, and they will do it, too, with all its attendant ills, and while at first it gently stimulates the Stomach, cleansing and removing these troublesome agents

IT ACTS UPON THE SKIN,

Removing whatever vitiated Humors, beautifying the face, kindling life and energy in your entire frame; then the doctor will the world no longer look dark and gloomy, no longer will your dearest hopes be banished and thrust aside, but with

Health and Strength

You will go forth into the world to live with thousands of others. C. A. Richards Abbott Bitters have done wonders for me.

The genuine have C. A. RICHARDS signature, and are sold everywhere.

BOUNTY LANDS.

IMPORTNT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress, granting Bounty Lands to the following classes of persons viz

One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received Land.

Eighty acres to all who have served and have received 40 acres.

One hundred and twenty acres to all who have served and have received 80 acres.

And if the soldier has deceased without obtaining 160 acres the same allowance as above is made to his Widow, or if no Widow, to his Minor Children.

Service in the Revolution—in the War of 1812—and in all the Indian Wars, is provided for by said Act.

And all who served the above period in the drafted Militia of the State of Maine in the year 1839, in what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out by State Authority, and who served the above period, and whose services have been paid for by the United States, and their Widows and Minor Children.

This subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and dispatch, and upon as reasonable terms as other Agents.

He has many Military Rolls and Copies in his possession, and especially very full ones of the Militia drafted for the Aroostook service in 1839.

As inducements to commit claims to his charge he ventures to rely upon his long and well known experience and success in those of a similar nature. He shall, if preferred, Purchase the Land Warrants at fair rates.

Application may be made to him at his Office, or if requested by letter he will send to claimants Declarations, with suitable directions, which may be executed without the parties leaving their homes.

To secure the receipt of a Warrant early, apply early.

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE WASHINGTON.

R. H. EDDY,

No. 76 State Street opposite Kilby St.,

BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber (late Agent of the U. S. Patent Office under the Act of 1837) determined to present advantages in applying for patents superior to those offered inventors by others has made arrangements, whereby our applications prepared and conducted by him, FIFTEEN DOLLARS (instead of twenty, as paid back by others,) will be remitted of him in case of failure to obtain a patent, and the withdrawal through him, within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—the immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe render him able beyond question to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions and infringement of patents. All necessary information to Washington to procure a patent, and the usual great delay there are here saved inventors.

Copies of the claims can be furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, Attorney of Patents.

TESTIMONIALS.

During the time I acted as the Chief Clerk of the Commissioner of Patents R. H. EDDY, Esq., of Boston, transacted business at the Patent Office as the Agent of many citizens. There were few if any persons acting in the capacity who had so much business before the Department, and those were persons with whom I dealt much, and associated closely. I regard Mr. EDDY as one of the most honorable and most skilful Patent Solicitors from the United States and have recommended persons who came to Washington to employ a person in no competent and trustworthy and more capable of putting their applications in a form to secure to them an early and favorable consideration at the Patent Office.

[Signed] EDMUND BURKE,
Late Commissioner of Patents.

From the pleasure of Commissioner.

Washington, March 1, 1855—During the time I have held the office of Commissioner of Patents R. H. EDDY, Esq., of Boston, has been engaged in the prosecution of claims before the Patent Office, and I have no hesitation in saying that in the whole of my official intercourse with the profession I have never met with one who was more prompt in his business habits, more faithful to the interests of his clients, or more successful in obtaining patents. Late Commissioner of Patents.

"The Year Book of Nations" is a little statistical book of fifty pages, compiled from thirty different works, published in different countries and languages. It is virtually a condensation of the National Almanacs of Christendom, and presents statistics of the various States of Europe and America, indicating their past progress, and present commercial and financial condition. To legislators, journalists and students it is highly valuable. As works of this kind cannot be expected to obtain a wide circulation, and as some difficulty or delay may be involved in procuring a single copy through a local bookseller, one will be sent, postage paid, to any person who will transmit 50 cents, in postage stamps, to "The Year Book of Nations," Box 2170, Philadelphia. It is prepared by Elihu Burritt

The feature of the session, of most general interest and importance thus far, is the introduction by Joseph Irish Esq'r of Union, of a Bill regulating and restricting the manufacture and sale of intoxicating liquors. The provisions of it are such, notonly as a regard alike to private rights and the public welfare would suggest, but as meet the prudent approbation of popular opinion The Bill is based upon the old and tried principle of a License Law —*Augusta Correspondent of Bangor Journal.*

The action of the Legislature upon this bill which "regards alike private rights and the public welfare," and "meets the cordial approbation of popular opinion," was to *refuse* its *passage* upon the very first consideration, and a motion to reconsider that vote, was laid on the table until the *Fourth of July*

At the Military and Civic Ball last evening, there were about two hundred couples present, including a considerable number from out of town, although many were prevented from coming by the storm The assembly was graced by many beautiful ladies, and presented a very brilliant appearance The supper tables were laid in the room over the hall, and elegantly furnished by Messrs Bickford & Pendleton, with a great variety of meats and delicacies The ice creams, furnished by Mrs Knowles, were most excellent.

In the interior of Norfolk, England, is a bed of oyster-shells, nine miles long, and about eight feet thick; other shells and bones, some of elephants, &c., also abound, 100 feet above the level of the sea, alder and hazel bushes are found 20 feet below the surface level. Remains of extensive forests are traced beyond the mouth of the wash and under the land, with bones of elephants, oxen and deer, the same fossils are found on the opposite coast of Flanders, and it is the opinion of eminent geologists and men of science, that they probe Jolbich.

RECEIPTS.—The Deputy Collector of Suspension Bridge states that the imports at this point for the month of January will be between $150,000 and $200,000. The exports were $170,000. Goods passing into Canada in bond, $300,000.

Boston Journal.

The quantity of potatoes now stored in cellars in Vermont is uncommonly large, owing to the severe and increased railroad tariff, which have prevented their movement for a market. Over 200 bushels were sold last week in Williamstown, for 15 to 17 1-2 cents per bushel.

Hon. Lord Elgin, of Portland, died at the United States Hotel on the 1st inst.

BOSTON HIGH SCHOOLS.—We were not able to attend the examination of this School yesterday, but hear a report of it in the highest terms by those who were present. The different classes in the languages and mathematics show a degree of proficiency which has rarely been excelled in any of our higher academies or seminaries.

We have received the account of this examination, which we shall publish hereafter.

The prizes for proficiency were awarded as follows.

1st prize, to John F. Appleton. Shakspeare's Complete Works (antique.)

2d " Frank Godfrey. British Orators.

3d. Sidney W Thaxter. Sparks' Life of Washington

And one copy each of the Life of Amos Lawrence, to seven others.

On Friday evening next the lecture in the Independent Course will be delivered by Miss Watkins from Baltimore, a well educated mulatto woman, who for some time was engaged as a teacher; and a volume of whose poems has been published. Miss W. delivered an able and highly interesting lecture last winter at Augusta, in which she plead eloquently for the rights of her people Rarely does a public lecturer succeed in winning the attention of an audience as did she on that occasion, both by the general interest of the subject, and the graces of literature in which it was clothed.—She has recently lectured with great acceptance at Hallowell and other places.

ELECTION BY HAMDEN.—REPUBLICAN TRIUMPH.—At the election for Town Officers, held in Hampden on Monday last, the Republicans elected their candidates by a clear majority of from fifty to sixty votes. The following officers were elected

Moderator—Joshua Hill.

Town Clerk—John Goodale, Jr.

Selectmen—David Brown, J. T. Holmes and Wm. Carey.

Superintendent of Schools—E A. Harding.

Treasurer and Collector—Edmund Duckey.

INJURY TO TREES.—We learn that many of the old and some of the young plum trees, in this vicinity have been killed, and others severely injured during the winter. The exact of the damage to these cannot, of course, be ascertained.

The reports from Florida are to the effect that the orange trees are ruined.

Generally fruit buds of all kinds are pretty effectually destroyed throughout the Mississippi Valley, and even on the Gulf of Mexico.

FIRE IN PORTLAND.—On Saturday night just before the snow storm commenced a fire broke out in the brick store No 172 Middle St., occupied by Marcus White as a brush manufactory, and soon extended to No 170 occupied by G. H. Perry Confectioner—and both stores were completely destroyed. One of the stores was owned by the heirs of Jeremiah Kimball, (insured for $1000) and the other by Mr Hanson of Cape Elizabeth. Stores No 168 and 164, the former owned by D Melnix and occupied by W. E. Richardson, trunk and harness maker, (shop insured for $1500) and the latter owned by the Messrs. Clapp and occupied by Mr. Seagle as a tobacco manufactory, were burned down in the first story. The store of Messrs. Johnson & Hall was saved by a brick partition wall and a tinned roof. There are a number of wooden buildings in the rear of the above premises, which by great exertions were prevented from burning. Had they been destroyed, the Advertiser says that in all probability the whole of Market Square would have been burned

SHIP TIMBER.—Ship timber is sent from New York to Maine. One firm has sent seven cargoes to the port of Kennebunk, Me., within a short time, and is supplying timber for the construction of about a dozen ships. The supplies are obtained from extensive forests in Ohio

—WHAT A THAW WILL DO.—The Cincinnati Gazette, speaking of the flood which is expected to prevail, should a sudden thaw occur in that section of country, says

"The country drained by the Ohio above that point contains 100,000 square miles. This is covered on an average, at present, with snow and ice to the depth of 12 or 15 inches, equivalent to at least six inches of water. This gathered into one body would fill a lake of 1000 square miles, 60 feet deep Suppose the river at that point to be one third of a mile wide, also to flow six miles an hour, at a rise of fifty feet above the present point it would carry off two square miles of the above lake each hour, or say fifty square miles a day, requiring 20 days to drain off the water, even supposing no more rain should fall. The earth is frozen full of water, so that not much can be absorbed. Under the most favorable circumstances we must have a high and continued flood. Let those who have property exposed take warning"

This paragraph is suggestive of consequences for which all who reside upon the banks of rivers should, as far as possible, be prepared.

BOSTON DENTISTRY.—It is conceded point, that no city in the world excels Boston in the skill of its Dental Surgeons. The stranger who traverses the city will be struck with the high position they hold, but nowhere will he find this art in higher perfection, than if, erected by a curious anatomical exhibition of the progress of dentistry, to be seen in an elegant show-case at 25 Tremont Row, opposite the Boston Museum he ascends to the rooms of Drs. CUMMINGS & FLAGG The Doctors are always ready to give the latest improvements in the best style, with betterments of their own

Their mode of setting teeth, single or set, on the principle of Atmospheric suction, without hooks or any dependence whatever in remaining teeth or stumps, is essentially their own, and eminently successful

The power of any man to *do things* in the right way is always discovered by the public sooner or later, and accordingly the public has discovered Drs. Cummings & Flagg to be the first practical dentists of the city of dentists, and are carrying their work to every dinner-table in Christendom.

Boston Journal.

The very first newspaper we saw with the names of Fillmore and Donelson at the head of its columns, was the Charlestown, Mass., Advertiser. "The latter name," it says, "has the added ring and memory of Old Hickory. Well, either, or both as Andrew Jackson lives, we yearn to add the Donelson, the ring is there of a tin lantern—single tin at that—and pricked full of holes with an opening at the top but not of the stamp of the copper metal in which Andrew Jackson was cast."

A Cousin in Need.

A PRUSSIAN STORY.

From Dickens' Household Words.

On a dreary autumn day, more than a hundred years ago, a heavy traveling carriage was slowly lumbering along the muddy road from Potsdam to Berlin. Within it was one person only, who, to look no heed of the slowness of the travelling, was busily engaged in arranging a small portfolio and making notes in a pocket-book. Since he was dressed in a plain, dark, uniform, it was fair to suppose that this gentleman belonged to the Prussian army, but to which grade of it nobody could determine, as signs of rank had been avoided A dreary November evening was closing in and the rain had for the time ceased, yet dark clouds flying through the sky gave that a "weeping darkness" was at hand The road grew heavier and heavier, at least as all who would have seemed to a foot traveller ploughing his way through its mire, but to the occupant of the carriage the horses appeared to be at last floundering along so slowly that they kept scarcely a foot traveller, fortunately, after the first whom they had overtaken by the side of the coach, though at a distance, certainly, after the first burst of mud that is splashed over him as man inside the coach, when he could see no longer, shut up his portfolio and return ed the pocket-book to its place in the breast pocket of his coat. He then rounded himself to look out of the window, and judge, from the mud and darkness, how far it might be to Berlin. For the first time he perceived that a young man was walking at a little distance by his horses Though more than ordinarily travel-stained, he trudged on as if his limbs were strong and his heart light. Through the dusk and the darkness all that could be seen of his face was sensible and good tempered. He had finished a pipe as he attracted the traveller's attention, and was in the act of shaking the ashes and replacing the pipe in a bag over his back when he heard himself addressed in the manner following, and in an authoritative tone of voice:

"Holloa, young man, whether are you bound for with such a night?"

"There is more than I can tell you, now being at home in this part of the world My wish is to reach Berlin, but if I find a resting-place before I get there, to that I am bound, for I am ready to drop with fatigue."

"I should think you must have two hours' walk before you," was the unsatisfactory remark followed

The young man made no reply, and after a short pause the stranger said—

"If it pleases you to rest on the step of the carriage for a few minutes you are welcome so to do, Herr Whats-your-name."

"My name is Heinrich Meyer, replied the young man, "one of those who wisely never refuse the small benefit because the larger one is not to be obtained He thankfully accepted the permission, and leaning through the window thrust the finger eagerly in the direction of the gentleman's face. "Hurrs, sir, puff away!"

After a short pause, during which time the stranger had been puffing at his pipe, he removed it from his mouth, and addressed Heinrich in this way —

"I have been thinking over what you have been telling me, and perhaps, in an humble way I might be able to assist you, and thus act the part of the cousin you are seeking. At all events, when you get to Berlin take this note," handing him the slip of paper on which he had been writing "Take this note to Marshal Grumkow, who is somewhat of a friend of mine, and who will, I think, be glad to oblige me. But, mind! Do exactly as he bids you, and abide strictly by his advice. If he says he will help you, rely upon it he will keep his word, but he is rather eccentric, and the way he sets about doing kindnesses may perhaps seem strange to you. And now," he continued, "as the road is improved, I must hurry on the horses, and so bid you good evening, hoping you will prosper in your new career."

As Heinrich began to express his thanks for the good wishes of his unknown friend, the signal was given to increase the speed of the horses, and before he had time to make any acknowledgments he found himself alone again. The young man was no little astonished at what had taken place; and, as he gazed on the slip of paper, could not help wondering whether any good would come of it. There was the only words written on it:

"DEAR MARSHAL.—If you can forward the views of the bearer, Heinrich Meyer, you will oblige your friend. F."

"Let me know the result of the interview with him."

"Time will prove this, as it does all other things," thought Heinrich, as he proceeded on his way. Somehow or other the road appeared less wearisome, and he felt less tired and footsore, since receiving the promise of a friend. Hope was stronger within him than she had been for many a day, and on her wings he was carried pleasantly along, and he reached Berlin by midnight.

The noise and bustle of the capital city seemed to be found both unusually [illegible] on the morning when he presented himself [illegible] recommended by the [illegible]

NEWSPAPERARCHIVE®

EUROPE.

BALTIC,

AT NEW YORK.

FOUR DAYS LATER NEWS!

NEW YORK, March 4.

The steamship Baltic of the Collins line, arrived this forenoon at 11 o'clock.

She brings no intelligence of the steamer Pacific.

The Peace Conferences opened on the 23d ult. All the envoys had arrived at Paris.

Confidence in the re-establishment of Peace still continues.

The Baltic on Wednesday, 27th, lat 46 10, lon. 47 11, fell in with a large field of heavy ice and was compelled to run 150 miles to the southward to clear it. Passed a large number of heavy icebergs, on Sunday, the 24th, in lat. 50 32, lon. 29 45. Signalized ship Anna Maria bound east. At 11 P. M., Sunday, the 23d, exchanged signals with steamship Atlantic, in lat. 49 40, lon. 68 [illegible].

The agreement respecting the American difficulties had somewhat subsided.

A large force of British sloops-of-war is to be concentrated in Canadian waters, as Palmerston bravado.

The steamship Africa arrived out on the 18th. The Baltic brings dates to the 20th ult.

The London Times announces that the 18th regiment and a battalion of rifles are about to be despatched to Canada, and several other regiments will follow soon, so as to concentrate a powerful force in that country. It is rumored also that almost every regiment attached to the home service has received intimation that their services may be required in Canada.

The money market continues extremely tight, the demand being in excess of the supply. The new loan is announced at five millions sterling, with a funding of exchequer bills to the extent of three millions. As these amounts have to be paid in five instalments in the course of two months, the demand will be doubtless continue active, and the market unsteady. But, on the other hand, considerable quantities of silver have been received and gold to a large amount is overdue from Australia. Consols improved on the announcement of the new loan, to 91¼, but afterwards declined to 90¾ a 90¼, at which quotations they sold.

The Rothschilds, it is said, purpose taking the whole of the new loan.

Baron Brunow is reported to have said that Russia is sincerely desirous of peace, but if peace be not made within three or four weeks at farthest from the opening of the Conference, serious difficulties must interfere with the final settlement of the question.

Lord Clarendon had a private interview with the Emperor immediately on his arrival in Paris.

Letters from the Crimea to February 4th state that the Russians continue to fire heavily from Fort Constantine.

It was said that 50,000 English troops were to leave for home.

England.

The Duke of Norfolk is dead.

A company has been formed to work the iron mines of Nova Scotia, to be called the Acadian Iron Company, with a capital of 200,000 pounds, in five pound shares. Among the Directors are persons connected with the trade of Sheffield.

The London Times says, under the head of military news, in addition to the 18th regiment and battalion of the rifles which are about to be despatched to Canada, it is understood to be the intention of the British government to send out several other regiments to British North America, so as to form a powerful force in that country. In anticipation of this step being taken, it is rumored that almost every regiment now attached to the home station has received private intimation that their services might be required in Canada, and such notice has been given of orders that the regimental clothing which is made expressly for that station, may be in readiness in case the exigencies of the service should require a large body of troops to be moved to that country.

The Glasgow Herald estimates the damage inflicted by the late storm upon shipping in the Clyde, and erections in and along the banks of that river, at $100,000. This is entirely irrespective of the great loss sustained in the city and adjoining country. It is thought the total loss in West Scotland would amount to £500,000 sterling.

John Sadlier, M. P. for Sligo, committed suicide on the 17th. Mr. S. was Junior Lord Treasurer under Lord Aberdeen. He had recently met heavy losses in railroad stocks, and his mind became disordered.

Fall grain is somewhat checked.

France.

The article in the Assemble Nationale touching the defensive works being constructed at Portsmouth, Eng., has elicited some remarks, and is looked upon as an exhibition of French jealousy.

The Paris corn market had slightly advanced, but it being fully ascertained that with the foreign arrivals there is an ample supply in France to last until harvest time, transactions have lately been very limited.

Austria.

Some additional particulars of the forthcoming Austrian amnesty have transpired. It will, with few exceptions be unconditional, and be made known immediately to those immediately concerned. Those who choose can rejoin their regiments at once and hasten the expiration of their punishment. Others can return immediately unattended, but in either case will be considered dead to their legal heirs.

Russia.

The Emperor's brother, the Grand Duke Nicholas, is married to the Princess of Oldenburg Alexandra Petrovna.

Asia.

On the 5th of January, 4 battalions of Russians surprised a body of Turks near Soundidi. The latter retreated, leaving their munitions and baggage. The Russians subsequently burned the Pacha's palace and several villages.

War Preparations.

The Times' Paris correspondent is assured that war preparations in France continue just as if no Conference were about to be opened. Also states that despatches from Asia Minor speak of the concentration of a large force at Erzeroum.

The Russians are also receiving reinforcements, and each appeared to anticipate a campaign.

It was supposed that the Russians had decided on holding Kars.

The Times' Vienna correspondent writes that preparations for defense are continued with the greatest energy in all the ports of the Baltic and Gulf of Finland, particularly in the neighborhood of Riga and Sweaborg.

The Times Kertsch correspondent under date of January 28th, states that rumors of Peace have in no way interfered with active preparations for war.

Marseilles, 9th. Ali Pacha is expected tonight. He will bring with him a decree of the Sultan sanctioning the proposed measure relating to reform. The Porte, it is stated, will demand that the Principalities shall remain distinct, but admitting for each of them the establishment of a hereditary Hospodar.

Paris, 18th. Lord Clarendon had an audience of the Emperor Napoleon on Sunday.—Count Buol was presented the following day. Priority was given to the English Plenipotentiary, it is said, intentionally.

Most earnest professions are made in official quarters at Paris of the determination of the Emperor's government to maintain the alliance with England throughout.

Asia.

Correspondence via Constantinople brings accounts from the coast of Asia to the 3d ult.

On high table land a snow storm continued during ten hours, which proved fatal to a Russian convoy on the way carrying provisions to the small garrison at Kars. A detachment of 75 men perished in the snow. It was said that a division of the Russian army encamped in the mountains, also suffered greatly. Their communications with the remainder of the country were interrupted, and their supplies nearly cut off.

The acceptance by the Emperor Alexander of peace propositions has been officially made known to the Russian authorities in Georgia, Armenia, and the Caucasian Provinces, where the announcement had the best possible effect.

The Crimea.

A despatch from Gen. Codrington, dated Sebastopol, February 4th, describes the destruction of Fort Nicholas that day. Weather magnificently fine.

Rear Admiral Lyndas has been appointed commander-in-chief of the Baltic fleet.

Ship News.

The bark Preteus, of Shelburne, N. S., Capt Harding, from Liverpool to Jamaica, with a general cargo, struck on the Blackwater coast of Ireland, Feb. 12th, and went to pieces. The master and eleven men were saved, and one man was drowned. The mate got adrift in a boat, and has not been heard of since.

The bark Select of Salem, Upton from New York for Constantinople, was knocked on her beam ends, on the 5th of January, dar[illegible] which and the following day she lost masts and spars, besides springing a leak. She put into St. Thomas, on the 25th ult.

The ship Vanguard has arrived at London with a cargo of rice from Madagascar, being the first importation of that kind of rice from that island.

Liverpool Markets.

Breadstuffs slightly advanced except white wheat, which has declined 1d.

In flour there is an improved demand. Western canal is quoted at 34s a 36s 6d; Philadelphia and Baltimore 37 a 38s; Ohio 38s.

Mixed corn is quoted at 33s, and white 36s.

Congressional.

WASHINGTON, March 4.

SENATE. In the Illinois election case, Mr. Stuart contended that the Constitution of Illinois renders Mr. Trumbull ineligible.

Messrs. Butler, Toucey and Sebastian were appointed a committee to wait on the President and inform him that Congress was ready to adjourn.

Mr. Mason presented the following resolution, which was adopted:

Resolved, That the President be requested to communicate to the Senate, if not incompatible with the public interest, the correspondence between the Secretary of State and the Russian Minister, relative to the proposition for the Congress at Paris.

Mr. Mason presented a resolution of the Legislature of Virginia, instructing the Senators from that State to vote for the appropriation for the Washington Monument.

Mr. Bell presented a petition from Tennessee, praying for the passage of a law to prevent the importation of foreign paupers

The Great European Cough Remedy.

Important to the Consumptive and the Public generally The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing

PREPARED ONLY BY
REV WALTER CLARKE,
Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs is gratefully acknowledged and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

Sold in trial bottles 25 cents each, large bottles, each containing the quantity of four small ones 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Rowdoin Town, Maine

DEAR SIR—Jan 17th, 1853.

To Rev Walter Clark Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on leg wife She has been afflicted with a cough for upwards of ten years that baffle entirely removed it.

From Rev Jesse Hoyt, Lewiston Falls.

Rev. Clark—Dear Sir—Every bottle of the Universal Cough Mixture, which you left with me, is sold, and I have received applications for more As it has cured all, it has been perfectly satisfied with the medicine. One man who had a cough for 8 or 10 years, and who with tightness of the chest and shortness of breath so that he was tied aside from business purchased one large bottle and before he had taken one third part of it was perfectly cured and has had no cough since. He says he has tried other medicines in the same case but never found any relief until he used the Cough Mixture

JESSE HAYES

From Mr. Fletcher Chick, agent for North Dixmont, Maine

Dear Sir—A number of this is are of extraordinary cures have been effected by the Universal Cough Mixture in this region several of which I have personally witnessed, and others have come to my knowledge in the most public manner within the last six months without a single exception that I have known to fail, cured by the Universal Cough Mixture

From Mrs Hobbard Thornditc Me

Rev Walter Clark Dear Sir—Many families that have used one bottle of your universal Cough Mixture to a strong cough or sickness in the house I had procured some two several times in the house and had been under the care of several physicians without obtaining relief. I was first happily by your Cough Mixture which I began recommended some It took one bottle which I began to use and in a few days I was entirely cured in a few days I was entirely cured

These Pills Purify the Blood.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally They strengthen any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

General Debility Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No Female, young or old should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, and in many cases like a charm. It is also the best medicine that can be given to children of all ages, and for any complaint—consequently no family should be without it

Holloway's Pills are the best remedy known in the world for the following Diseases:

TESTIMONY FROM MAINE

Dr C M Jackson—Dear Sir—Brooklin, Maine, July 16, 1853 says "I was taken sick one year ago last April, upon my passage from Havana to Charles ton, S C At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite At last taking up a newspaper having your advertisement of Dr Hoofland's German Bitters in it, sent for some immediately. This was about 10 o'clock A M I took the first dose, and another at 6 o'clock The effect was so rapid on me that I had good appetite for supper, and rested well that night, and the next day found me a well man I have not been without your invaluable Bitters since, being sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it

Capt. B. Hall & Co., Presque Isle, Aroostook Co., Maine, April 24, 1854, say "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story

Messrs. Jos Hall & Co.—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From the following number of cures performed by Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one bottle*, she is enjoying better health than she has for years She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters

WILLIAM CLARK.

Salmon Brook, Aroostook Co, Me

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases

MEDICAL DISCOVERY

The Greatest of the age!

MR KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple.

He has tried it in over eleven hundred cases, and never failed except in two He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples in the face

Two to three bottles will cure the system of boils

Two bottles are warranted to cure the worst sore in the mouth and stomach

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the head.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum

Two to eight bottles will cure the very worst cases of Scrofula!

The effects is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, but that a common weed, growing upon the gutters, and along old rotten walls, should cure every humor in the system yet it is now a fixed fact If you have a humor it has to start. There are doctors and doctors about it, curing some cases but not yours He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever known in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen young looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness Some who have taken it have been costive for years, and have been regulated by it. Where the body is bound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week—There is never a bad result from it—in the contrary, when that feeling is gone, you will feel yourself like a new person I heard some of the most extravagant encomiums of it that ever man listened to

No change of diet ever necessary Eat the best you can get, and enough of it

A MARVELLOUS REMEDY
For a Marvellous Age!!

HOLLOWAY'S OINTMENT!

The Grand External Remedy.

By the aid of a microscope we see millions of little openings on the surface of our bodies Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, Disorders of the Liver, affections of the Heart, inflammation of the Lungs, Coughs, Colds, Coughs and Colds, are by its means effectually cured. Every household knows that salt passes through stone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume in this Ointment No case of Salt Rheum, Scurvy, Scald Head, Scrofula, or Erysipelas, can long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment gratuitously and administering advice as to its application, and has thus been the means of restoring countless numbers to health

Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors Professor Holloway has by command of the Allied Governments, despatched to the hospitals of the East, large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds It will cure any sore, glandular swelling stiffness or contraction of the joints, even of 20 years' standing

Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases

Bunions	Piles
Bad Legs	Rheumatism
Chapped Hands	Salt Rheum
Chilblains	Sore Breasts
Fistulas	Sore Legs
Gout	Sore Throats
Lumbago	Sore Heads
Mercurial Eruptions	Sores of all kinds
Scalds	Scrofula
Skin Diseases	Swelled Glands
Stiff Joints	Ulcers
Tumors	Venereal Sores
Wounds of all kinds	

Sold at the Manufactories of Professor Holloway, 80 Maiden Lane, New York and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in Pots, at 25 cts, 62 cts, and $1 each

There is a considerable saving by taking the larger sizes

N B Directions for the guidance of patients in every disorder are affixed to each Pot

BLACKWOOD'S EDINBURG MAGAZINE

THE great and important events—Religious, Political, Military—now agitating the whole World, give to these publications an interest they never before possessed They occupy ground between the hastily written news speculations, and dying rhymes of the newspaper condensed Tomes of the historian written long after the living interest in the facts he records shall have passed away The progress of the War in the Last large space in their pages Every subject is carefully considered, whether of science and art, of fashionable amusement, or of the most profound importance. The letters from the Seat of War in the Baltic in Blackwood's Magazine from the pen of a most popular contributor, give a more satisfactory and reliable account of the movements of the belligerents than is elsewhere to be found

These Periodicals also represent the three great political parties of Great Britain—Whig, Tory and Radical—but politics form only one feature of their contents. Organs of the most profound writers on science, literature Morality and Religion they stand at the head, and unrivalled in the world of letters being indispensable to the scholar and the professional man, while to the intelligent reader of every class they present a mode correct and satisfactory record of the events and history of the day throughout the world than can possibly be obtained from any other source

EARLY COPIES.

The receipt of Advance Sheets from the Publishers gives additional value to these Reprints, as during the present existing state of European affairs, intelligence of the most important character may be expected almost as soon as the original editions can be received in this country, thus rendering them to subscribers about as soon as the original editions

Stimulated by the flattering countenance and generous approbation of the reading community through which their journal has so extensively circulated, the publishers of the *American Traveller* have determined to withhold no efforts, which pecuniary and industrial means can supply, and only to deserve the high estimation which their past labors have achieved to merit a more elevated appreciation and a still wider patronage and to shed lustre upon the *American Traveller* without a rival among its contemporaries The literary department, which a distinguishing policy has heretofore corresponded to their enterprise, includes the assistance on the part of the proprietors that an increase of their endeavors to edify and entertain the reading community, will meet with a commensurate increase of the already extensive circulation of the *Traveller* Our abundant sources for

NEWS

include the receipt of journals from abroad and the whole of our wide spread country *the unlimited use of the magnetic telegraph line with the wires which centre in the Counting Room of the Office*, the communications of its all great and faithful correspondents at every principal city or doctorate point, and an experienced corps of reporters for every passing event of interest to a more local description Unsparing efforts always be made to reap the fullest advantage of these means, and to augment them as circumstances shall require

THE LITERARY DEPARTMENT

of the *Traveller*, which has received the commendation of its readers and the public generally, for its careful and impartial notices of new books, such as may afford the most a reliable and useful guide to the merits of publications of our teeming book press

THE MISCELLANEOUS DEPARTMENT embraces an original or carefully selected or translated original contributions from able writers on scientific topics, from which our readers may derive improvement in the mind and affections

THE COMMERCIAL INTERESTS

In addition to the regular prices current, views of the market and shipping interest with reports are given of the merchandise and produce market generally, and of the cattle markets, made up by an experienced reporter expressly for the *Traveller*

Agents supplied on reasonable terms

THE DAILY EVENING TRAVELLER
